

OCEANIC WORLDWIDE RESOURCE Matrix

Discipline	Name	Years of Experience	Degreed Engineer	FEED	Detail Design	Process Engineering	Marine Engineering/Naval Architecture	Project Management	Flow stations onshore	Platforms offshore	Pipelines Onshore	Pipelines offshore	Electrical Engineering	Power generation	Subsea	QA/QC	HSE	Scheduling, Cost Control, Planning	Logistics & Procurement	Petro Chemical	Tank Farms & Storage	Marine Terminals, and Loading Facilities	Corrosion Control	Oil Spill and Clean up	Geologist	Structural/Civil Engineering	Vessel design	HVAC	Document control	Drilling systems/Rigs	TLP	Contract Management	Hook up & Commissioning	Instrument & Control Engineering	FSPO	Mechanical Engineering	Reliability/Maintainability/Avaiability	Construction Management	Operations Management											
Hook up & Commisioning	Barry Fitzgerald	30																																																
Commissioning Mng	John Ritchie	30																																																
Planning	Dennis Watson	30																																																
Commisioning	Brian Thubron	25																																																
Hook up & Commisioning	Fedrik Trippier	30																																																
Commissioning	Paul John Collin	12																																																
Proces/Commissioning Mng	Anthony Muxworthy	20																																																
Subse Engineering	Jessica Cohen	18																																																
Piping design	C.O. Spear	40																																																
Piping design	Curtis Vanderford	28																																																
Instrument/Control Engineer	Mark Evans	18																																																
Instrument/Controls Engineer	Clarence Theriot	22																																																
Electrical Engineer	Robert Kraszewski	35																																																
Mechanical/Rotating Engineer	Haresh Merchant	10																																																
Piping Engineer	Loc Van Nguyen	28																																																
Structural Engineer	Daniel Ramirez	15																																																
Structural/Projects Engineer	Russ Gray	15																																																
Geologist	Brantly Goodwin	32																																																
Electrical Engineer	Stephen Hartzog	33																																																
Constructions/Mechanical Eng	David C. Smith	37																																																
Project Control	Andrew P. Nolan	28																																																
Mechanical Engineer	Bill Lin	25																																																
Piping design	Christopher Reagan	17																																																
Procurement	Dan Hines	13																																																
Piping design	David Cedillo	7																																																
Field Engineer	Harvey Hammond	15																																																
Document Control	Irene Harris	16																																																
Planning/Schedule	Jeffrey Mays	8																																																
Project Manager	John Weaver	33																																																
Piping Design	Leon Juneau	17																																																
Meetering Engineer	Lucious T. Barnum	23																																																
Project/Cost Control	Natalia Milovankina	9
